

CEO SARL

SPECIALIZED WASTE MANAGEMENT COMPANY

About Us

CEO SARL SPECIALIZES IN PROVIDING INNOVATIVE RENEWABLE ENERGY SOLUTIONS THROUGH THE COLLECTION AND MANAGEMENT OF HOUSEHOLD WASTE AND WOOD RESIDUES FROM INDUSTRIAL CONVERSION.

•Our activity is linked to the recovery of industrial and household waste. These materials are used to produce energy, a fuel with low CO2 emissions.

CEO SARL is a team of experts convinced that change is possible thanks to renewable energy and determined to write the future with innovative solutions to the challenges facing humanity,

how can we shape the future of waste?

Transforming plastic waste into a source of energy and employment in developing countries

A process for recovering post-industrial fibers in a closed circuit to manufacture low-cost recycled carbon fibers.

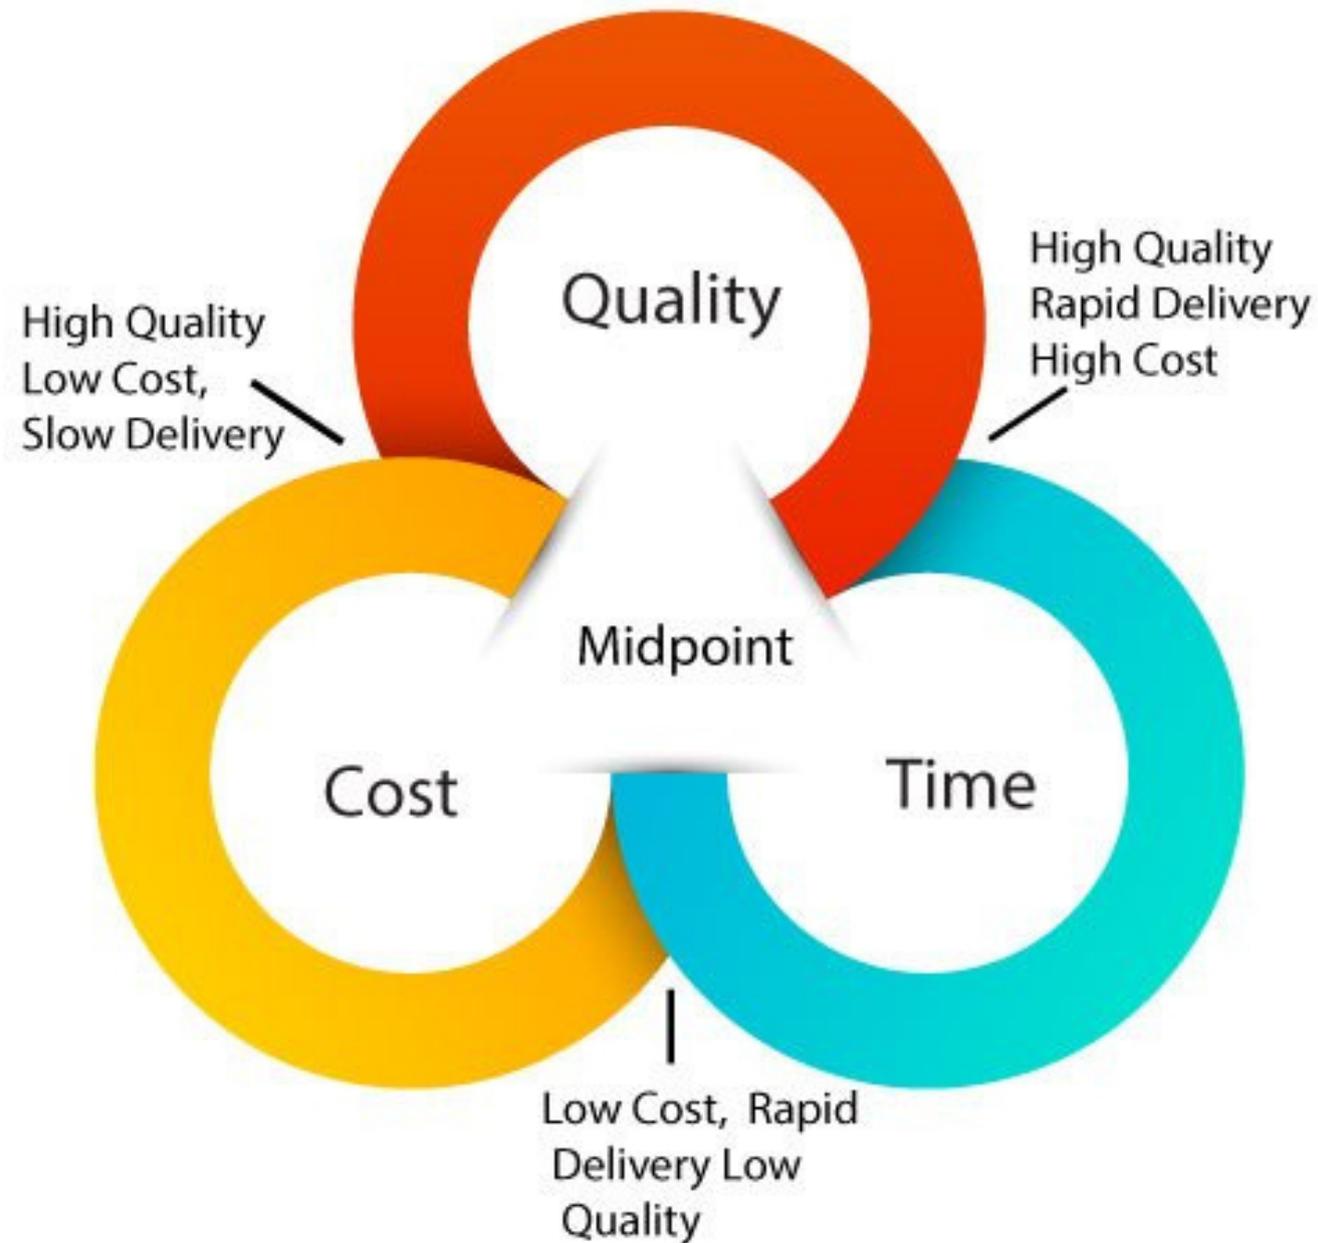

Large-scale waste collection combined with circular end-of-life solutions

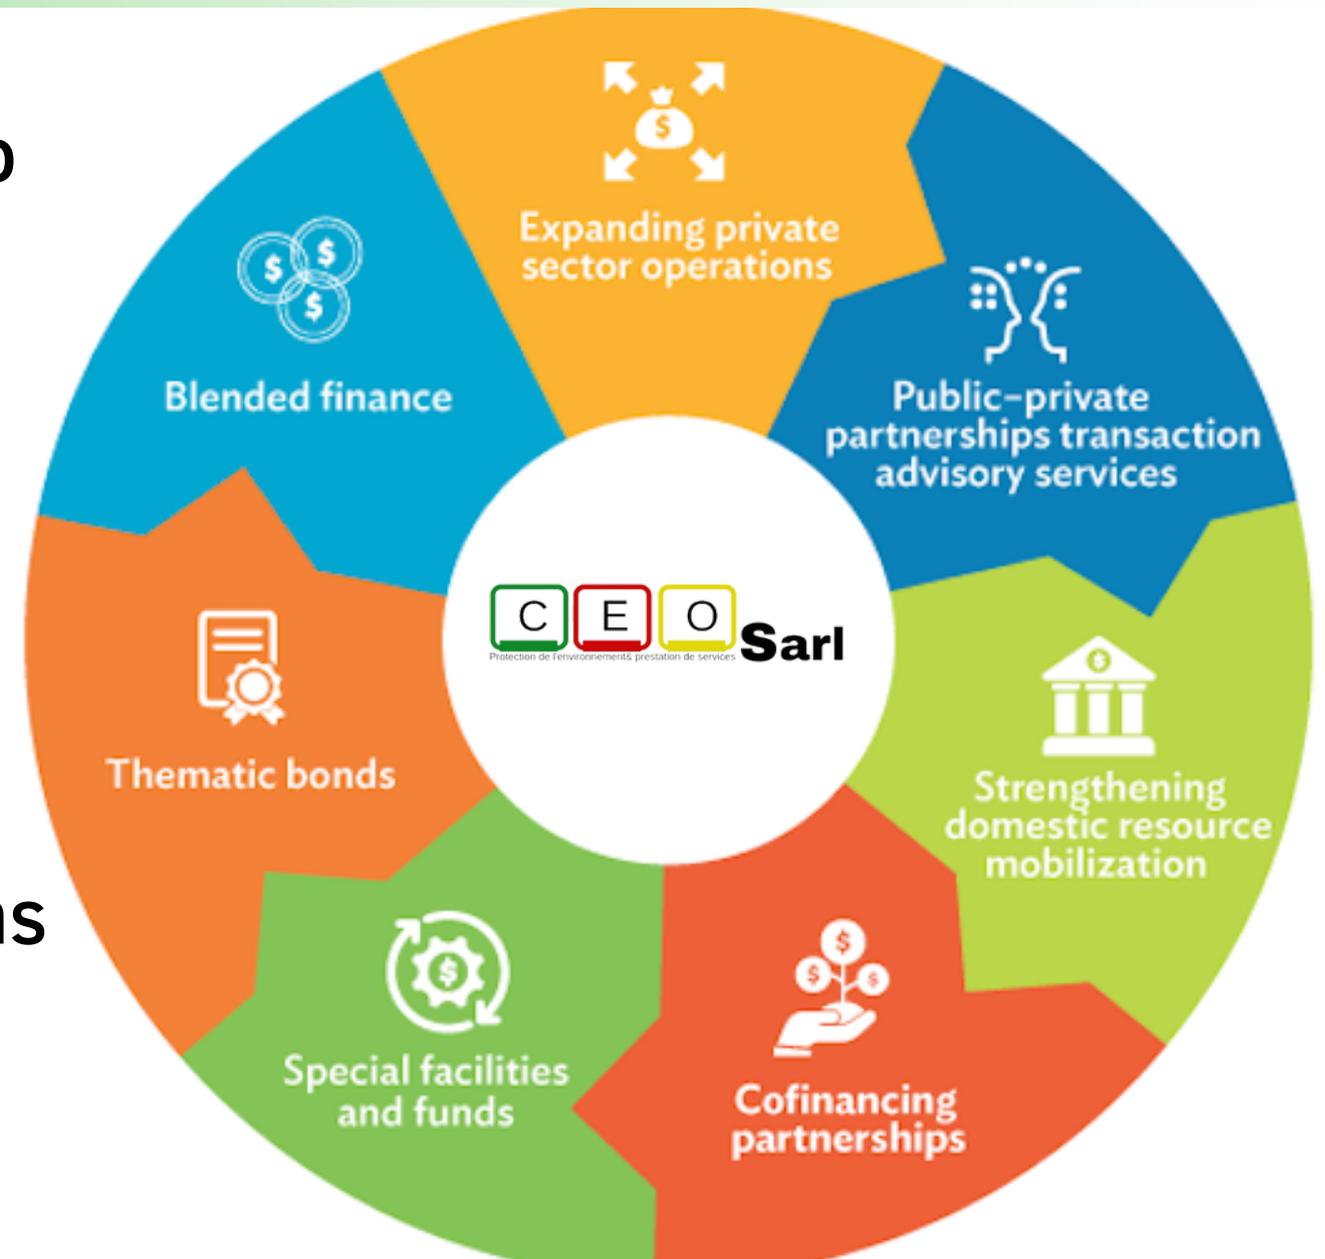

Large-scale waste collection combined with circular end-of-life solutions

Our commitment to our customers
